

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

ADDRESS FOR 1876.

By Maj.-Gen. Sir H. C. RAWLINSON, K.C.B., &c., President.. Vol. XLVI. p. cxxix.

Past year an important one to the Society both in the continuance of its material prosperity and the accomplishment of the most serious geographical enterprise hitherto undertaken, cxxix.—deference paid to the Society at the Paris International Congress of Geographers; great results from Lieutenant V. L. Cameron's journey in Africa, cxxx.

*Obituary Notices.* WERNER MUNZINGER, C.B., cxxxi.—Marquis de SA DA BANDEIRA, cxxxiv.—his map of Angola, cxxxv.—Count ANNIBALE RANUZZI, cxxxvi.—General DUFOUR, cxxxvii.—Marquis GIAMMARTINI ARCONATI VISCONTI, cxl.—THOMAS BAINES, the artist-traveller, cxli.—Commodore JOHN GRAHAM GOODENOUGH, cxliv.—Earl of SHEFFIELD, cxlvi.—Bishop THIRLWALL, cxlvii.—Earl STANHOPE, cxlviii.—Lieutenant-Colonel ALEXANDER STRANGE, cxlix.—Sir J. GARDINER WILKINSON, F.R.S., cl.—Sir WILLIAM EDMUND LOGAN, F.R.S., cli.—Sir FREDERICK ARROW; JOHN BAPTIST ZWECKER, clii.—Hon. J. W. WOODFORD BIRCH, cliii.—Right Hon. HOLT MACKENZIE.

*Admiralty Surveys*, cliv.—Arctic expedition of the *Alert* and *Discovery* under Captain G. S. Nares; news down to July 27th, 1875, brought by Captain Allen Young, clv. *England*, changes in the Solway Firth; surveys by Staff-Commander KERR; elaborate survey of Southampton Water and Cowes Roads; Staff-Commander PARSONS' work in the *Porcupine* on the East Coast. *Ireland*. *Mediterranean*, minute survey of Port Said, and current observations thence to the Damietta mouth of the Nile, clvi. *East Coast of Africa*, clvii.—death of Commander F. J. GRAY, of H.M.S. *Nassau*. *Japan*, surveys by Captain St. John in the *Sylvia*; work done by native officers. *Corea*, clviii.—failure of attempt to survey coast. *Newfoundland and Labrador*, survey under Staff-Commander MAXWELL progressing. *Jamaica*, south shore still being examined, clix. *Western Australia*, completion of survey northward to 28th parallel.—*South Australia*. *Victoria*, survey of Banks Strait in progress. *Queensland*, clx. *Fiji Islands*, Lieutenant Dawson's work.

*Deep Sea Exploring Expedition.* Cruise of the *Challenger* drawing to a close; continuation of sketch of the work accomplished, clxi.

*Summary.* Sailing directions, charts, &c., published during the year.

*Arctic Regions.* *Alert* and *Discovery* last seen on July 17th, 1875, from Waigat Strait, near Disco; C. B. Markham's account of the last days of the expedition, clxvii.—*Pandora* about to start for the Arctic regions; Professor NORDENSKIÖLD preparing for another cruise; intends to leave Gothenburg on July 10th.

*Iceland.* W. L. WATTS' journey across the previously untrodden Vatna Jökull, and publication of Captain R. F. BURTON's 'Ultima Thule,' clxviii.

*Russia.* Colonel TILLO's levellings across Siberia to Irkutak; Chekanofsky's expedition to the Olonek, clxix.—examination of *tundra* as far as Cape Krestofsky; valuable results of expedition; Amu-daria expedition; M. Dorandt's observatory at Nukus, clxx.—his determination of relative positions of 11 places; surveys of Amu-daria; M. Miklukho-Maklay's travels in the Malay peninsula; expedition to the Ket and Chulim rivers under M. Sidsensner to ascertain practicability of uniting Obi and Yenisei river-systems; M. Lepatin's geological exploration of Chulim basin; Hissar expedition under M. Maief; started from Karshi, in Bokhara, clxxi.—visit to Hissar, in the Surkhan

valley, and Faizabad, in that of the Kafirnihan, and thence to the valley of the Surkhab; return through ill-health; Usboi, or old bed of the Oxus, explored and surveyed between Bala-Ishen and Lake Sara-kamish, clxxii.—return of M. Sosnofsky from China; route followed by his expedition; contemplated Arctic work; party sent by Bremen Polar Verein to Western Siberia; expeditions to Mongolia; Prejevalsky about to start for Lob-Nor.

*India.* *Trans-Himalayan Surveys*, Captain H. Trotter's report a great gain to geography, clxxiii.—notes of work done by the trained native explorers; Nain Singh's route over new ground in Tibet, clxxiv. *Topographical Surveys.* *The Naga Hills*, excellent work done by Captain Badgley and Lieutenant Woodthorpe, clxxv.—Captain Butler killed by the Nagas. *The Dufia Expedition*, Major H. H. Godwin-Austen in charge of surveying operations, clxxvi.—account of the geology of the Dufia Hills, clxxvii.

*New Geographical Works relating to Asia.* Official reports on scientific subjects by members of Sir T. Douglas Forsyth's Mission to Kashgar; vast amount of information in C. R. Markham's 'Tibet'; Dr. Anderson's 'Mandalay to Momein'; A. R. Margary's journal, clxxviii.—Major Herbert Wood's work on the Aralo-Caspian basin; Delmar Morgan's translation of Colonel Prejevalsky's Travels in Mongolia.

*New Guinea.* Rev. S. Macfarlane's explorations, clxxix.—on the Mai Kassa, or Baxter River and on the Fly River, clxxx.—Octavius Stone proceeds from Cape York to Port Moresby; his visit to hills at the foot of Mount Owen Stanley, clxxxi.—publication of the Journals of Commodore Goodenough during his last command on the Australian station.

*Australia.* Award of Royal Medal to John Forrest; Ernest Giles' explorations in West Central Australia, clxxxii.—2500 miles of country traversed; no land available for settlement; services of Jesse Young and W. H. Tietkens, Mr. Giles' assistants; this probably the last of Australian expeditions on a large scale.

*North America.* *United States*, important additions made to our knowledge of the Western Territories by the Geological and Geographical Survey under Professor F. V. Hayden; beautifully executed maps published of the Snake River and of portions of Montana and Wyoming Territories, clxxxiii.—Atlas of Colorado: work done in the year; publications; work of Topographical Department under General Humphreys and Lieutenant Wheeler west of the 100th meridian, clxxxiv.—new Statistical Atlas of the United States by Professor Walker; Geological Survey of California suspended; publications by Professor J. D. Whitney; labours of W. H. Dall, Colonel Dodge, Professor Thompson, and others, clxxxv. *The North American Boundary Line*, geographical information collected by expedition given in Captain S. Anderson's paper.

*South America.* Issue of first volume of Don Antonio Raimondi's work on the geography and products of Peru; explorations in Brazil; James W. Wells' journey, clxxxvi.—T. P. Bigg-Wither's on the river Tibagy; papers contributed by both contain welcome information on topography and physical geography; Alfred Simson's exploration up the river Iça or Putumayo; details not yet received.

*Africa.* H. M. Stanley and Lieutenant V. L. Cameron, R.N., clxxxvii.—proceedings of Mr. Stanley on the Victoria Nyanza, clxxxviii.—sketch of Lieutenant

Cameron's great journey across the continent, clxxxix.—its scientific results; construction of a section of elevation across Africa between 4° and 12° S. lat.; news of Dr. Oscar Lenz; return of rest of German Expedition; German African Society preparing to send a new expedition under Edward Mohr, cxci.—M. de Brazza's expedition on the Ogowé; his further plans; Colonel C. G. Gordon on the Upper Nile, cxci.—remarks on hydrography of the Nile; Colonel Gordon has proved that the White Nile comes out of the Albert Nyanza [note], cxci.—M. Marno's journey, cxci.—Mr. Lucas at Khartum; proposes to march south, and find the sources of the Congo; Algerian missionaries murdered in the Northern Sahara; flourishing condition of the Livingstonia settlement on Lake Nyassa; launch of steamer *Itala* by E. D. Young; his circumnavigation of the lake [note], cxci.—H. B. Cotterill's expedition to the lake to push commercial enterprise; Bishop Steere's journey to Mataka's town from Lindy Bay, on the east coast.

*Conclusion*, cxci.—New Geographical Societies formed; proposed encouragement of the study of Physical Geography, cxci.—farewell remarks of President, cc.

#### ADDRESS FOR 1877.

By Sir RUTHERFORD ALCOCK, K.C.B., &c., President .. Vol. XLVII. p. cxxxi.

The past year an eventful one; return of the Arctic Expedition; meeting of African Geographical Conference at Brussels; commencement of lectures on Physical Geography, cxxxi.—re-organisation of Map Department on the retirement of the Curator, Staff-Commander C. George, R.N., after 20 years' service, cxxxi.—loan of diagrams; new arrangements for admission to meetings of exceptional interest; change in rule as to day for Anniversary Meeting, cxxxi.
